GSEB Class 12 Board Exam 2027 – Pattern at a Glance

Marks	Physics, Chemistry and Biology: 70 marks theory + 30 marks practical. Mathematics: 100 marks theory (no practical). Accountancy, Economics and English: reported as approximately 70-100 marks theory with an internal/project component of roughly 20-30 marks — the exact split varies by subject and source; please confirm with your faculty.
Question types	Around 30% objective (MCQ) questions with the remainder in short- and long-answer format, per recent GSEB pattern reforms; exact weightage may vary by subject.
Curriculum	Physics, Chemistry, Biology, Mathematics and English follow NCERT-aligned textbooks (English uses NCERT's Flamingo and Vistas). Accountancy continues to follow GSEB's own textbook *"Elements of Book Keeping and Accountancy"*, which differs from NCERT Accountancy in chapter order and titles. The Economics chapter list below is compiled from secondary sources and could not be independently verified against a GSEB-specific textbook — please confirm before final print.
Exam window	GSEB HSC (Std 12) Board Examinations are typically held in February–March (2025 cycle: 27 Feb – 17 Mar); the official 2027 date sheet had not been released at the time of writing.
Passing marks	A minimum of 33% is generally required per subject.

Pattern and syllabus details are compiled from publicly available secondary sources (GCERT/GSEB-aligned aggregator sites), since the official GSEB website (gseb.org) functions mainly as a results/services portal and does not host a browsable syllabus section from this environment; the board's official 2026-27 circulars and 2027 date sheet had not been released/located at the time of writing. Please cross-check this content with your subject faculty before final print — the Social Science (Std 10) and Economics (Std 12) chapter lists in particular carry lower confidence (see notes below).
