Telangana Intermediate Board Exam 2027 – Pattern at a Glance

Board	TSBIE (Telangana State Board of Intermediate Education) conducts the Intermediate 2nd Year public examinations, typically in March; the official 2027 date sheet had not been released at the time of writing.
Marks	Physics/Chemistry/Botany/Zoology: theory + practical components (theory commonly cited around 60 marks, practicals around 30 marks – sources gave slightly conflicting totals, please confirm exactly). Mathematics IIA & IIB: 75 marks theory each. English: 100 marks. Pass mark is 35% in each component.
Exam-pattern reform notice	Multiple news sources report TSBIE is overhauling the exam pattern from academic year 2026-27 onwards (revised practicals split, revised marks weightage for several subjects); one source suggested this change is phased in for 2nd-year students only from 2027-28, meaning the **2027** batch may still follow the existing/older pattern described here – this could not be independently confirmed and should be verified against an official TSBIE circular before finalising content.
Curriculum	Physics, Chemistry, Botany and Zoology follow the TSBIE syllabus (largely NCERT-aligned for Physics/Chemistry). Commerce-stream subjects (Accountancy, Economics) follow the board's own syllabus; these two subjects carry lower sourcing confidence – see notes below.

Pattern and syllabus details are compiled from publicly available secondary sources (TSBIE/BSE Telangana-aligned aggregator and coaching sites), since the official board websites (bse.telangana.gov.in, tsbie.cgg.gov.in) were not reliably reachable from this environment at the time of writing. Several items below carry lower confidence — please cross-check with your subject faculty before final print, particularly the exact paper/marks split, the Zoology chapter list, and the Commerce-stream subjects (see notes below).

Biology (Botany & Zoology) (26 tests)

The Zoology chapter list is a simplified, best-effort compilation – sources disagreed on some sub-topic groupings (e.g. exactly where Genetics and Ecology topics sit across the two years) and this could not be fully resolved. Please verify the exact Zoology chapter list against the official TSBIE textbook before final print.
